Sanskar Pandey

MCA (Cloud Computing) Student | Aspiring Cloud Engineer

(+91) 8169146991 · Sanskarp681@gmail.com · Mumbra, Thane, Maharashtra 400612

SUMMARY

MCA student specialising in **Cloud Computing** at **Parul University**, with a B.Sc. in Computer Science from Mumbai University. Hands-on knowledge of **Linux** and **Python**, backed by a strong foundation in programming, web development and problem-solving. Passionate about cloud technologies and building efficient, reliable software. Seeking an internship or entry-level role in cloud, DevOps or software development to apply my technical knowledge and contribute to innovative projects in a growth-oriented organisation.

EDUCATION

MCA — Master of Computer Applications (Cloud Computing) *2025 – 2027 (Pursuing)*
Parul University, Vadodara, Gujarat

Bachelor of Science in Computer Science *Aug 2022 – Apr 2025*
Mumbai University

Higher Secondary Certificate (HSC) *Mar 2021 – Mar 2022*
Mumbai University

Secondary School Certificate (SSC) *Jan 2019 – Mar 2020*
Mumbai University

TECHNICAL SKILLS

Cloud & OS	Cloud Computing fundamentals (IaaS, PaaS, SaaS, virtualisation), Linux (command line, file system, permissions, shell basics)
Languages	Python, Java, C++
Web	HTML, CSS, JavaScript, Bootstrap
Databases	MySQL, MongoDB (basics)
Tools	Git, GitHub, VS Code
Core	Data Structures & Algorithms

PROJECTS

Weather WebApp *HTML · CSS · JavaScript · REST API*
Created a weather web app that fetches real-time weather data from a public API (OpenWeatherMap). Users can search any city and view current temperature, conditions, humidity and wind speed. Focused on responsive design and robust API handling.

tmovies — Movie Web App *HTML · CSS · JavaScript · REST API*
Designed and developed a movie web app to search and view movie information using a public API. Implemented title search, poster display, ratings and descriptions with a clean UI and dynamic content rendering.

Chess Game *HTML · CSS · JavaScript*
Developed a web-based chess game allowing two players to play in real time with a user-friendly interface. Implemented standard chess rules and piece movements, game logic, interactive UI and basic move validation.

KEY COMPETENCIES

Excellent communication skills • Strong interpersonal skills • Proactive and self-motivated • Exceptional organisational skills
