SUMMARY

B.Sc. Computer Science graduate with a strong foundation in programming, web development, and problem-solving. Passionate about learning new technologies and building efficient software solutions. Familiar with languages like Python, Java, and tools like Git, SQL, and HTML/CSS. Seeking an entry-level role to apply my technical knowledge and contribute to innovative projects in a growth-oriented organization.

KEY COMPETENCIES

Python, Java, C++	Git, GitHub, VS Code	Strong interpersonal skills
HTML, CSS, JavaScript, Bootstrap	Data Structures & Algorithms	Proactive and self-motivated
MySQL, MongoDB (Basics)	Excellent communication skills	Exceptional organisational skills

PROJECTS

Chess Game

Developed a web-based Chess Game allowing two players to play in real-time with a user-friendly interface. Implemented standard chess rules and piece movements using JavaScript and HTML/CSS. Focused on game logic, interactive UI, and basic validation. Project aimed to enhance logical thinking and front-end development skills.

Weather WebApp

Created a Weather Web App that fetches real-time weather data using a public API (like OpenWeatherMap). Users can search for any city and view current temperature, weather conditions, humidity, and wind speed. Built using HTML, CSS, JavaScript, an integrated API calls . Focused on responsive design and API handling.

tmovies

Designed and developed a Movie Web App that allows users to search and view information about movies using a public API. Implemented features like movie title search, posters display, ratings, and descriptions using HTML, CSS, and JavaScript. Clean UI design, and dynamic content rendering.

EDUCATION

Bachelor of Science in Computer Science **Aug 2022 - Apr 2025**
Mumbai University

Higher Secondary Certificate (HSC) **Mar 2021 - Mar 2022**
Mumbai University

Secondary School Certificate (SSC) **Jan 2019 - Mar 2020**
Mumbai University
